Chart Compiling Farmers' Submissions to the Court Regarding the December 2015 Settlement with DFA/DMS

For the Court's convenience, the Dairy Farmer Subclasses have compiled the attached chart that lists all the letters filed with the Court regarding the Settlement as of May 9, 2016. These numbers are characterized as preliminary as it is Subclass Counsel's understanding that there may be timely letters that have not yet been docketed by the Court.

Some of the information included in the farmers' submissions to the Court was either missing or difficult to confidently decipher. Subclass Counsel attempted to fill in missing or illegible information where it was possible. Information added by Subclass Counsel has been italicized.

Preliminary Adjusted Numbers: The table below summarizes the submissions in support and opposition of the Settlement but excludes (a) farmers with addresses outside of Federal Order 1, (b) Farmers who opted-out of the settlement, and (c) likely duplicates. The submissions that have been excluded are shaded in gray in the attached chart. As these adjusted totals more accurately reflect the support/opposition from Subclass Members, these are the numbers included in the Memorandum in Support of Final Approval.

Support	1,048
Oppose	98

Preliminary Adjusted Numbers by State:

	CT	DE	MA	MD	NH	NJ	NY	PA	VT
Support	10	9	22	36	22	10	533	115	291
Oppose	0	0	0	3	0	2	33	60	0

Preliminary Raw Numbers: The following summary includes all letters docketed by the Court regardless of whether the letter was sent from a farm within Federal Milk Marketing Order One or from a farmer who has elected to opt out of the Settlement or Subclasses. For a handful of submissions, it was unclear whether the letter indicated support or opposition to the Settlement; those submissions have been included in the "Other" category.
